To all concerned:

**2221639**

The information contained in this genealogy has been compiled with utmost care. It has taken several years to collect the names and dates listed within these pages and by no means does it represent the full and complete information; many blank spaces still remain unfilled.

Although every effort has been made to print the information as received, it is possible errors might have un-intentionally and un-knowingly found their way into the finished product. For any mistakes, I humbly apologize and ask that corrections be forwarded to me so when future genealogies are printed, the dates will appear correct.

One feature of this book, the numbering system, should be explained in order for each one to effectively make use of it. For those not interested in statistics, they may disregard the numbers completely because they add little to the main "Houser Family" information in the book.

The numbers are not too difficult to understand. Always remember the first digit, usually a one (1), means the person is a descendant of John Houser. When the first number is a zero (0), it means the person is not a Houser descendant, therefore must be the wife or husband of a Houser descendant. The second number indicates the generation in which the person belongs. And, the third number, usually two or three digits, shows the number of THAT person in his or her generation.

Example 1: 1-2-01 George Houser. The number shows that George Houser is a descendant of John Houser; he was born in the second generation; he is the first person in that generation. 0-2-01 Lucy Long. She is not a Houser descendant; she belongs to the second generation of Housers by marriage; and she is a part of the family unit of George Houser because the last two numbers are the same as his.

Example 2: 1-5-20 George Houser. This George Houser is a Houser descendant; he was born in the fifth generation; he is the twentieth person in that (the fifth) generation.

Amateur Radio played a big part in getting information. By using my call letters, W9KTX, I was able to contact fellow Amateurs in areas where it was known Houser descendants lived. These Hams would use the telephone book to find desired names and addresses. With this information, letters could be written requesting family dates. Much data was secured in this manner though some letters were not answered.

In closing I want to thank each one who helped in any way to supply information used in this genealogy. I especially want to thank Mother and Dad (Orville and Lodema Houser) for their assistance in helping to get the necessary stencils cut and books assembled.

Sincerely yours,

Virgil H. Houser, W9KTX

T H E       " H O U S E R "       G E N E A L O G Y

The earliest available records found so far about the "Houser Family" indicates the Father of John Houser (1791-1861) was born in Germany. He came to this country and as far west as Pennsylvania where he married and settled down.

It was in Pennsylvania that John Houser (1791-1861) was born, but so far no record has been located that would confirm or deny the existence of brothers or sisters of John Houser, though it is highly possible there were other children.

John is the only one we have been able to find information on and is, of course, most important to us because he is the first Houser of this Genealogy.

From Pennsylvania John Houser went west into Holmes and/or Coshocton County, Ohio where he made his home. Nothing is known about his wife, what her name was nor when they were married. We do however have their children's names and some dates, which are shown below.

Continue westward, some of the "Housers" stopped in Indiana to make their home; settling in and around Dekalb, Huntington, and St. Joseph Counties, while some went on west to Nebraska and California to settle and make their home.

#### FROM THE OBITUARY OF DAVID M. HOUSER

David M. Houser was born at New Bedford, Holmes County Ohio. He was the last member of the John and Catherine Houser family. He received a common school and high school education and then began teaching in the District schools until the outbreak of the Civil War.

When the call came for troops, he enlisted in Company "C" 73rd I.V.I. (Indiana Volunteer Infantry), Col. Hathway Commanding. He shared the vicissitude and hardship of his comrades thru the Buell and Bragg campaign in Kentucky; he was with his company in the famous Col. Streight raid thru Tennessee and Georgia pursued by the rebel, Gen. Forest, and was present when Col. Hathway met his death in the battle of Blount's Farm.

He volunteered with a number of others to advance on Rome, Georgia to destroy Confederate supplies stored there, but before they got there Streight's entire command was captured and sent to Libby Prison.

Following the Tunnel Episode, he was paroled and reported at Indianapolis for exchange however, before this took place, the Morgan Raid in Ohio and Indiana came on and he joined the pursurers and was at the capture. He was detailed to assist in taking prisoners to Chicago---upon his return to Indianapolis, he was sent to Nashville, Tenn. where he took sick and was assigned to the Nashville Hospital.

His illness led to loss of sight, from which he never fully recovered. While in the hospital he gave his attention to the sick and wounded and was detailed as Hospital Steward in Hospital No. 10, Nashville, Tenn., where he served until the end of the war.
